

## Report on Singing Club - 27.11.2024

On 27th November 2024, the Singing Club organized a session focused on enhancing both musical and linguistic skills. Students were encouraged to practice English songs as a creative approach to improving their communication skills.

The activity emphasized pronunciation, intonation, and rhythm, blending language learning with musical expression. Students actively participated, selecting popular English songs and working on their delivery under the guidance of club mentors.

This unique initiative not only helped students refine their vocal abilities but also boosted their confidence in using English, contributing to their overall personality development. The session was both productive and enjoyable, leaving students motivated to continue their practice.

Regards,

Club I/C
