Five Day Workshop on IBM BLUEMIX

Title: Five Day Workshop on IBM BLUEMIX

Introduction to the Event:

IBM Bluemix, rebranded as IBM Cloud, is a cloud Platform as a Service (PaaS) that supports various programming languages and integrates DevOps tools for building, running, deploying, and managing applications. Based on Cloud Foundry technology and hosted on SoftLayer, it offers a seamless experience across public, private, hybrid, and multicloud environments. Key features include its Function as a Service (FaaS), built on the open-source Apache OpenWhisk project, enabling serverless computing similar to AWS Lambda and Google Cloud Functions. Training on IBM Cloud enhances technical knowledge for students and faculty, leading to improved performance and successful career outcomes, while fostering a culture of continuous learning within organizations.

Event Date: 25th – 29th September, 2014

Title: Workshop on VLSI Design flow with Cadence EDA Tool

Introduction to the Event:

The workshop on VLSI Design Flow and Cadence EDA Tools provides a thorough overview of the VLSI design process, covering everything from initial concepts to final fabrication. Participants will learn essential VLSI concepts and the stages of the design flow, including specification, design, verification, and fabrication. With hands-on training in industry-standard Cadence tools like Virtuoso and Encounter, attendees will gain practical skills in creating schematic designs, performing simulations, and developing layout designs, which are highly valued in the industry. The workshop will also feature expert lectures and real-world case studies, offering insights into successful VLSI projects and common challenges. Interactive Q&A sessions will foster collaboration, while networking opportunities with industry professionals will help participants build connections for future collaborations. Upon completion, attendees will receive a certificate acknowledging their proficiency in VLSI design and Cadence tools, enhancing their credentials in this dynamic field.

Event Date: 19th – 23rd September, 2014

Title: Faculty Orientation for JNTUH e-Learning (ELSDM) by GLOBARENA

Introduction to the Event:

The Faculty Orientation for JNTUH e-Learning (ELSDM) by GLOBARENA at BIET is designed to equip educators with essential tools and strategies for effective online teaching. Participants will gain a comprehensive understanding of the e-learning platform's features while engaging in interactive sessions on digital pedagogy best practices, including course design, content delivery, and student engagement. The orientation will also focus on adapting traditional teaching methods for the online environment, exploring innovative approaches to assessment, feedback, and collaboration. By the end, faculty will be proficient in using the ELSDM platform and inspired to implement new strategies that enhance active learning and foster student success.

Refresher course on Thermal Power Generation Scenario-Opportunities and Challenges

Title: Refresher course on Thermal Power Generation Scenario-Opportunities and Challenges

Introduction to the Event:

The Refresher Course on Thermal Power Generation: Scenario – Opportunities and Challenges (TPSOOC 14) aims to provide participants with a comprehensive understanding of the current landscape of thermal power generation. As global energy demands rise, the course will explore the vital role of thermal power plants in meeting these needs while addressing environmental and regulatory challenges. Attendees will examine recent technological advancements and shifts in energy policies, gaining insights into how the sector is evolving. The course will discuss opportunities presented by innovative technologies, such as carbon capture and storage, which can reduce emissions and enhance sustainability, as well as challenges like competition from renewable sources, fluctuating fuel prices, and stringent regulations. Through expert lectures, case studies, and interactive sessions, participants will collaborate with industry professionals and academia, networking to explore partnerships for innovative solutions. By the end of the course, attendees will enhance their technical knowledge and develop a strategic perspective on leveraging opportunities while addressing current challenges in the thermal power industry.

Event Date: 23th – 27th October, 2014

New Faculty Orientation Program

Title: New Faculty Orientation Program

Introduction to the Event:

The New Faculty Orientation Program is designed to welcome and integrate newly appointed faculty members into the academic community, ensuring they feel supported and prepared for their roles. This comprehensive program offers an overview of the institution's mission, values, and culture, helping new faculty understand expectations and available resources. Participants will gain insights into university policies, academic programs, and support services through informative sessions and discussions. The orientation includes workshops on essential teaching strategies, curriculum development, and student engagement techniques, emphasizing innovative pedagogical approaches and technology integration to create dynamic learning experiences. Key topics such as assessment methods, academic integrity, and fostering an inclusive classroom environment will also be addressed, equipping faculty to meet diverse student needs. Networking opportunities are a crucial component, allowing new faculty to connect with peers, mentors, and administrative leaders, fostering collaboration and community. Overall, the program aims to create a positive onboarding experience, empowering educators to thrive in their new roles and contribute meaningfully to the academic community.

Faculty Orientation Program

Title: Faculty Orientation Program

Introduction to the Event:

The Faculty Orientation Program is a crucial initiative designed to help new faculty members transition smoothly into their roles within the academic institution by providing a comprehensive introduction to the university's mission, values, and strategic goals, which allows educators to align their teaching and research with the institution's objectives. The program includes informative sessions that familiarize new faculty with available resources, such as academic support services, library resources, and professional development opportunities, while also focusing on equipping faculty with effective teaching strategies and classroom management techniques through workshops covering best practices in pedagogy, curriculum design, and assessment methods, ensuring they are prepared to create engaging and inclusive learning environments. Furthermore, it addresses the integration of technology in education, giving faculty tools and knowledge to enhance their teaching and improve student engagement in the digital age. Networking is an essential component, offering new educators opportunities to connect with colleagues, mentors, and administrative staff, fostering a sense of community and collaboration that supports professional growth and enhances teaching practices. By the end of the orientation, new faculty members will feel informed, empowered, and welcomed into a vibrant academic community committed to excellence in education and research

FDP on Advances in Additive Manufacturing Technologies

Title: FDP on Advances in Additive Manufacturing Technologies

Introduction to the Event:

The Workshop on Advances in Additive Manufacturing Technologies serves as a dynamic platform for researchers, industry professionals, and educators to explore the latest innovations in 3D printing and related fields. As additive manufacturing revolutionizes production processes across various sectors, this workshop focuses on cutting-edge techniques, materials, and applications shaping the future of manufacturing. Attendees will engage with thought leaders and gain insights into emerging trends driving efficiency and sustainability in production. Participants will delve into topics such as the development of new printing materials, advancements in printer technology, and the integration of artificial intelligence into additive manufacturing workflows. Expert speakers will present case studies showcasing successful implementations of these technologies in industries like aerospace, healthcare, and automotive. Hands-on sessions will provide attendees with opportunities to interact with the latest equipment and software, fostering a practical understanding of how these innovations can be applied in real-world scenarios. Networking opportunities will enable participants to connect with peers and industry leaders, facilitating collaborative discussions that encourage the exchange of ideas and best practices, paving the way for future partnerships and research initiatives. By the end of the event, attendees will leave equipped with valuable knowledge and inspiration to further advance their projects and contribute to the ever-evolving landscape of additive manufacturing.

Workshop on Radar Technologies and its applications

Title: Workshop on Radar Technologies and its applications

Introduction to the Event:

The recent workshop on radar technologies brought together experts, researchers, and industry professionals to explore the latest advancements in radar systems and their diverse applications. Participants engaged in a series of presentations and hands-on demonstrations, showcasing innovations in radar signal processing, imaging, and detection techniques. Keynote speakers highlighted the evolution of radar technology from its military origins to its current roles in fields such as aviation, automotive safety, and environmental monitoring. A central theme of the workshop was the integration of radar technologies with artificial intelligence and machine learning, focusing on how these advancements can enhance target detection, improve tracking accuracy, and facilitate real-time decision-making in complex environments. Case studies demonstrated successful implementations of radar systems in autonomous vehicles, where precise obstacle detection is crucial for safety. Participants exchanged ideas on future trends and potential challenges in radar applications, fostering a collaborative atmosphere that encouraged innovative thinking. Networking opportunities allowed attendees to forge valuable connections and discuss potential collaborations, with fruitful interactions between academia and industry as researchers shared their findings and companies showcased cutting-edge radar products. Overall, the workshop provided a platform for knowledge exchange and inspired participants to consider new possibilities in radar technology, paving the way for future developments that could significantly impact various sectors.

FDP on Fault Tolerant Computing in Hard Time Asymmetric Distributed

Title: FDP on Fault Tolerant Computing in Hard Time Asymmetric Distributed

Introduction to the Event:

The refresher course on Fault Tolerant Computing in Hard Time Asymmetric Distributed Systems covered techniques and strategies for ensuring system reliability in challenging environments. It focused on principles of fault tolerance, redundancy mechanisms, consensus algorithms, and recovery strategies, with real-world applications and case studies. Through lectures, hands-on exercises, and discussions, attendees gained practical insights into designing robust systems, balancing performance, reliability, and complexity, and implementing fault tolerant computing concepts.

Workshop on Antenna Design

Title: Workshop on Antenna Design

Introduction to the Event:

The antenna design workshop attracted engineers, researchers and students, offering theoretical and practical training on telecommunications and wireless technologies. Participants learned antenna principles, design techniques and simulation skills, exploring dipole, patch and array antennas. Real-world case studies and networking opportunities highlighted emerging trends, inspiring innovation and collaboration, and equipping attendees with enhanced skills and knowledge.

Attendance Sheet for EOP on cloud computing by C.D.A.C

S. No.	Name of the Faculty	Designation	6/1/2015	7/1/2015	8/1/2015	9/1/2015	10/1/2015
1	Dr. Jayaraman Srinivasan	Associate Professor	✓	✓	✓	✓	✓
2	VANDANADRI VUTURAMATHAN	Associate Professor	✓	✓	✓	✓	✓
3	MANOJAN JOSHI	Assistant Professor	✓	✓	✓	✓	✓
4	Charita Jayarama	Assistant Professor	✓	✓	✓	✓	✓
5	S PRADIP	Assistant Professor	✓	✓	✓	✓	✓
6	PUNJAGANTI SETHURAJAN	Assistant Professor	✓	✓	✓	✓	✓
7	PRASUNNA D L N	Assistant Professor	✓	✓	✓	✓	✓
8	VIVEK SURESH	Assistant Professor	✓	✓	✓	✓	✓
9	M SIVA PRASAD	Assistant Professor	✓	✓	✓	✓	✓
10	Dr. Jyoti Venkatesh	Assistant Professor	✓	✓	✓	✓	✓
11	Indhira Jayan	Assistant Professor	✓	✓	✓	✓	✓
12	GANAGA RAJATHIRUKELA	Assistant Professor	✓	✓	✓	✓	✓
13	SARITHA PADDURUNA	Assistant Professor	✓	✓	✓	✓	✓
14	PARVANA RAO	Assistant Professor	✓	✓	✓	✓	✓
15	GRASHEE D CHAITANYA SAI	Assistant Professor	✓	✓	✓	✓	✓
16	SHRUTI RAMA YAGAM	Assistant Professor	✓	✓	✓	✓	✓
17	VINEETA MADHUSUDAN	Assistant Professor	✓	✓	✓	✓	✓
18	GARISH VITARA KIMARU	Assistant Professor	✓	✓	✓	✓	✓
19	ARVINDH REDDY RAYA	Assistant Professor	✓	✓	✓	✓	✓
20	KRISHNAN PIDDIKATULA	Assistant Professor	✓	✓	✓	✓	✓
21	AKA T S S	Assistant Professor	✓	✓	✓	✓	✓
22	GANJA RAO	Assistant Professor	✓	✓	✓	✓	✓
23	PRASANNA K RAMANARAO	Assistant Professor	✓	✓	✓	✓	✓
24	HARSHAVARDANA SRIKANTA PAI	Assistant Professor	✓	✓	✓	✓	✓
25	MUSHAM THIRUMALESH	Assistant Professor	✓	✓	✓	✓	✓
26	GOPH KRISHNAN	Assistant Professor	✓	✓	✓	✓	✓
27	PROBUDH RAO BH	Assistant Professor	✓	✓	✓	✓	✓
28	UNIKRISHNA MADHUREKA	Assistant Professor	✓	✓	✓	✓	✓
29	DR. V. PONNUSAMY	Assistant Professor	✓	✓	✓	✓	✓
30	SRINIVASULU PRASADHRA	Assistant Professor	✓	✓	✓	✓	✓

REPORT

On

FDP on Cloud Computing By C-DAC

Title: FDP on Cloud Computing By C-DAC

Introduction to the Event:

The Centre for Development of Advanced Computing (C-DAC) organized a Faculty Development Program (FDP) on Cloud Computing, providing an extensive overview of cloud technologies and their impact on education and industry. The program covered cloud computing concepts, architecture, deployment models, cloud service models (IaaS, PaaS, SaaS), virtualization, containerization and orchestration through lectures, hands-on labs and discussions. Faculty members gained practical experience with popular cloud platforms, networking opportunities and enhanced technical skills for teaching and research initiatives, inspiring innovative integration of cloud technologies into curricula.

Event Date: 06th – 10th January, 2015

No. of Days: Five Days

No. of Participants: 30

Resource Person: Manohar Gosur, Assoc. Prof, CSE, BIET

Sample Participation Certificates

BHARAT
Institute of Engineering and Technology
NAAC Accredited; NBA Accredited for UG Programmes: CSE, ECE, EEE & ME
Approved by AICTE, New Delhi; Affiliated to JNTUH

CERTIFICATE

of participation

WE PROUDLY PRESENT THIS TO

V. MOUNIKA

FOR ATTENDING FIVE-DAY FACULTY DEVELOPMENT PROGRAM ON
CLOUD COMPUTING ORGANIZED BY C-DAC HELD FROM 06-10
JANUARY, 2015
